## ABOUT US

Established in the year 2003, Global Academy is an ISO / IEC 27001: 2013 CERTIFIED privately owned distance education institution, registered as a subsidiary of LK Online Education and Services Private Limited [CIN:U93090KL2017PTC050044] which is a leading domestic educational consultancy in South India that operates with the goal of supporting students as well as professionals who want to upgrade their academics. Our vast experience and knowledge of the education system has put our institution as a path blazer in the field of distance education and a consultancy for professional courses as well.

We serve as a touch-point for the distant education programs offered by different boards and universities. Our portmanteau includes distance education and online courses from Secondary level to Post-Graduate level and consultancy of a range of professional courses. We offer career counselling and guidance for aspiring candidates to steer their talents and abilities towards better career prospects and brighter future.

Presently, we are on the verge of extending our operations to Bengaluru, New Delhi & the Middle East. Ever increasing population of expatriates in the region will put Global Academy a front runner in the education field and the relevance of consultancy services gains momentum in this context. This aspiring scenario backs our existence as a vibrant and dynamic education facilitator which is in tune with budding aspirations of many in the Middle East.

## ONLINE COURSES

### **TEACHERS TRAINING COURSES**

**Pre-Primary Teachers Training Course**

**Montessori Teachers Training Course**

**Early Childhood Care Education**

**Diploma in Education**

### **ENGLISH HAND WRITING IMPROVEMENT COURSE**

## MISSION

Women Empowerment by providing them with career oriented and self-employment oriented courses in online mode. We have multiple online courses which can be done at flexible timings and comfort. Online courses are a great solution to the challenges women face as they are provided with high-quality education and on their own place and time.

We are venturing into the latest technology based learning solutions by creating application software which will prepare aspirants to excel in competitive exams and entrance exams. This application is intended to be a learning assessment tool which will provide mock tests, monthly current affairs and one-liners which serve as quick reference along with upcoming exam notifications and YouTube videos.

Our handwriting improvement course is upgraded to include Graphoanalysis. Graphoanalysis is the most systematic and best researched of all methods of handwriting analysis which can be used in career counselling.

## SOCIAL RESPONSIBILITY

As an initiative to give back to the society, we are providing education aids and scholarships to deserving school students. For this purpose LK Online Education and Services Private Limited has formed a charitable trust, Universal Education Foundation or UEF. UEF is registered under Govt. of Kerala, Reg.No:64/IV/2017(K). This was ignited in October 2003 at Kaloor, Cochin, Kerala with an aim to provide basic qualification and better career opportunities to socio-economically backward students.

UEF believes that everyone should have access to high-quality learning opportunities that allow them to achieve educational excellence regardless of their income or social status. We work to find solutions to reach it, pre school through secondary level.

The trust focuses on rural areas of Kerala & its neighbouring states, irrespective of their religious or social background, by providing education aids and scholarships so that they can compete at a national and international level. UEF has been providing education aids to a few other states as well.

## VISION

We aim to become the top most distance education consultancy in South India. We have affiliations with top 10 universities in India. We work closely with around 20 colleges in South India. We have been instrumental in giving a second chance to many men and women who could not pursue their studies due to various reasons. We believe that effective nation building is possible only with the support of educated human resources and thus we are involved in the education industry.

Since establishment, Global Academy has tried to dispel the myths about distance learning by facilitating the admission procedures through effective career counselling and guidance. Over the years, we were able to encourage students of numerous domains to resume their education in both academic as well as professional disciplines and to enable them to explore wider and newer career opportunities.

We have successfully expanded our business to Karnataka and are planning on increasing our reach to other South Indian states. As part of evolving the business, we have started an office in Dubai. Our vision is to strengthen the distance education consultancy services throughout the Middle East.

## OUR SERVICES

**Distance Education:** We promote distance education mode for working professionals, home makers and others who are not capable of doing regular academic courses. This has helped many to upgrade their skills and move to higher positions in their jobs.

**Consultancy:** Our consultancy services begin with identifying the student profile and their corresponding requirements before guiding them to select the right course based on current market trends, future prospects, their financial budget and other relevant aspects. We have regular career guidance seminars and make use of graphoanalysis methodology to assist candidates in choosing right career path.

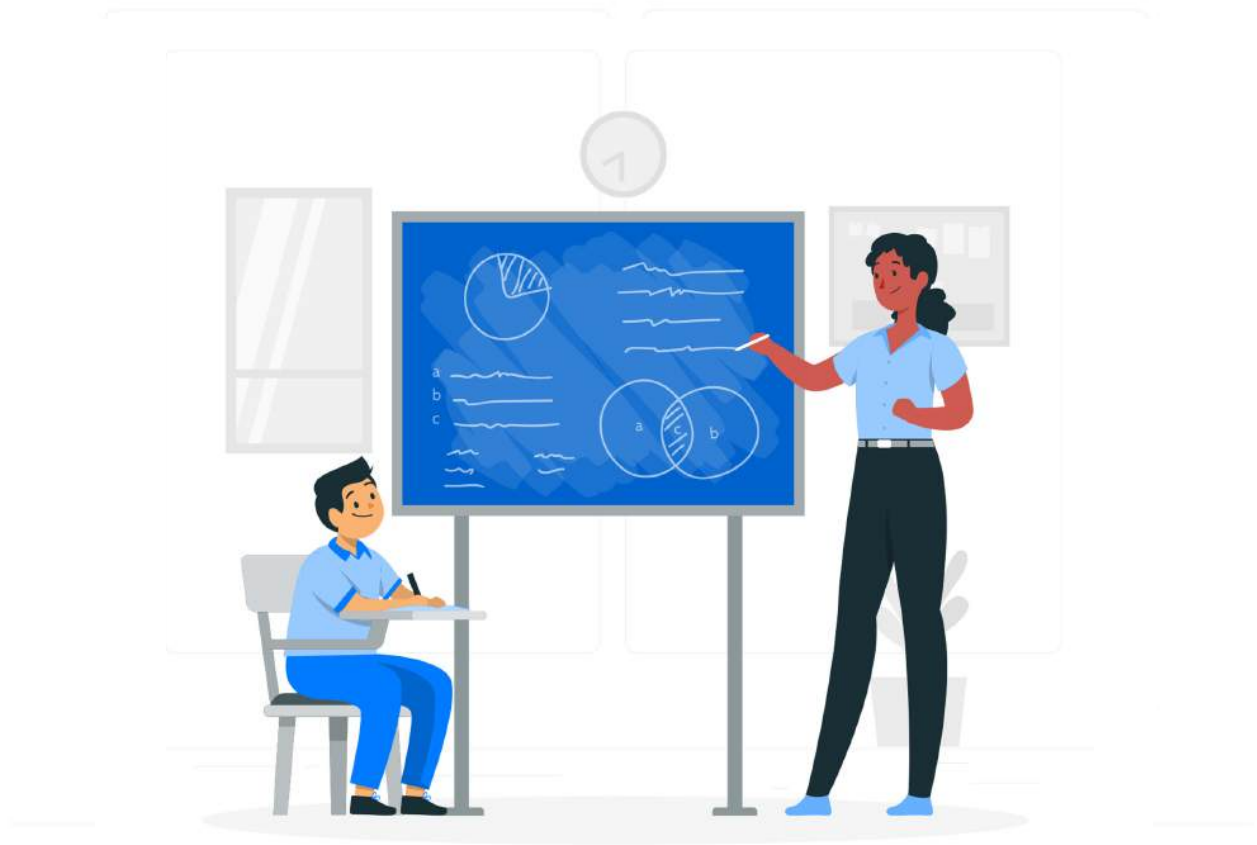

**Online Courses:** We have inspired many home makers to come out of their home and start their own business by acquiring self – employment oriented courses. The online courses give them a flexibility to do the courses at their own time and comfort.

**Admission guidance:** After assisting the candidates in identifying the desirable course, we help them in making applications to the Universities we have affiliations. We liaison with the respective academic institutions to ensure they got admissions.

We strive to work in the interest of both students and educational institutions that make us more professional and absolute reliable partner for the right academic and career advancement. In order to add value to our services, we observe personal, moral and ethical values to maintain high standards in our services.
